# What's the weather like today?

The weather is

[Blank space for writing]

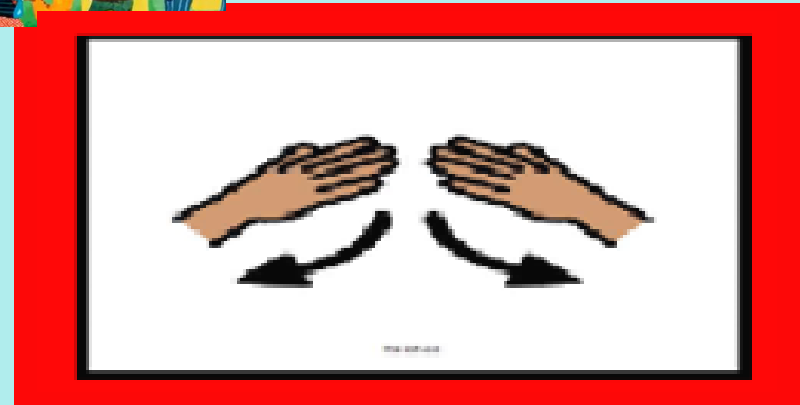

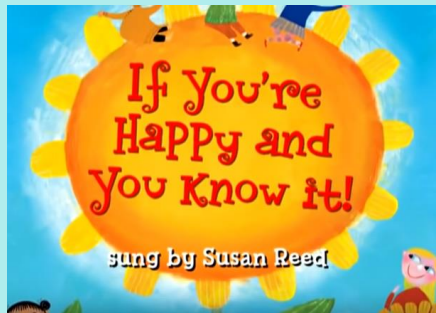

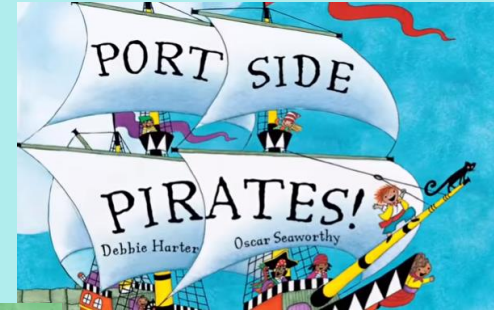

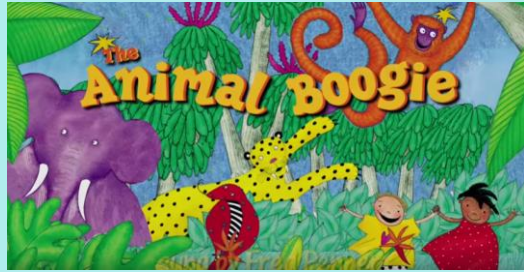

I need to wear

[Blank space for writing]

# Choose a song

Click on the songs to make them play, drag them to finished when completed

# How to use this resource

- You may like to print off this PDF to create a desk based activity. If so, print it twice, Laminate 1 copy. Cut out the 'buttons' off the second copy and use Velcro to make it a nice desk based matching task you can use with your child.
- To use the interactive content you will need a laptop or a tablet. Many of the buttons are links to external content or different pages of this document.
- **Schedule Page** - the first page is your home page, it contains the schedule of the group activities, clicking on the icons brings you to the page, the yellow back button will always bring you home to the schedule page.
- **Write your name** - if you have printed and laminated this page your child may be able to write their name with dry wipe marker in this box, alternatively you could print out the individual letters of their name to spell their name in the box, or they could place a picture or a printed flashcard of their name in the box.
- **Calendar Page** - Each day links to a short song for the day. The calendar icon links to starfall calendar where you can discuss upcoming items this month with your child, like a birthday etc,
- **Weather page** - encourage your child to point to the symbols for today's weather and what to wear. If you have printed this as a hard copy they could match them to the sentence strip.
- **Choose a song** - we usually end a group with a reinforcing choice such as a song or story. Many of our pupils love barefoot books. Each of these pictures links back to the song on youtube.
- Make it your own, Enjoy!
